10	Reflection	/5	5
Final			92 (A)

#### Feedback:

It was beyond a pleasure to mentor and supervise Ashton on this virtual placement. Ashton went above and beyond in all aspects of this placement. She worked diligently as she completed each task with professionalism, insight and meaningful reflection. The curriculum she developed showed a well-developed understanding of emergent curriculum and developmentally appropriate practice. Ashton will be a remarkable educator. She understands the importance of connection and seeks out guidance when needed. She utilizes current research to inform her teaching practices and critically thinks about her role as an educator. I wish Ashton all the best, the field of education will be fortunate to have her knowledge, leadership and authenticity.
